

ERA GARCIA

FRONT-END ENGINEER (UI/UX, API Integration, QA)

📍 Caloocan City, PH

🌐 <https://engarcia.com>

✉️ hello@engarcia.com

PROFILE

I'm a Front-end Engineer with **6+ years of experience** building responsive, user-focused web applications. I specialize in translating design into clean, maintainable code while integrating APIs and ensuring smooth, reliable user experiences. Over the past few years, I've expanded into web design, strengthening my ability to make thoughtful UI/UX decisions and bridge the gap between design and development. I also contribute to quality assurance, helping catch issues early and deliver more polished products.

I enjoy working at the intersection of design and engineering—building interfaces that are not only functional, but intuitive and well-crafted.

EMPLOYMENT HISTORY

Infinite Pecunia Solutions Ltd. | Senior Front-end Developer / Web Designer / QA 2022 - Present

Remote / Home-based

- Provide ongoing support and maintenance for multiple internal websites and web applications, ensuring optimal performance, reliability, and user satisfaction.
- Monitor, investigate, and troubleshoot system issues; resolve bugs and user-reported problems in a timely manner.
- Collaborate closely with management and back-end developers to implement updates, patches, and feature enhancements.
- Conduct manual QA testing to identify bugs and validate features before deployment, ensuring quality standards are met.
- Integrate and test RESTful APIs, working with Postman to validate data flows between front-end and back-end systems.
- Apply responsive UI design principles and animations to deliver clean and user-friendly interfaces.
- Use version control and collaboration tools such as Git and Docker to manage code and deployments efficiently.

Tools and technologies: Figma, VS Code, React.js, Vite, Astro.js, Docker, Git, Postman

Freelance | Front-end Engineer 2020 - Present

Self-Employed - Remote / Home-based

- Delivered custom web applications and websites using React.js, Astro.js, Next.js, and GSAP (applying animations to enhance UI aesthetics and improve user engagement).
- Collaborated with multiple developers, designers, and project managers to gather requirements, design solutions, and ensure timely project delivery.
- Maintained ongoing client relationships and provided post-launch support and updates.
- Managed all aspects of project life cycle from concept through deployment.
- Use version control and collaboration tools such as Git and BitBucket.

EMPLOYMENT HISTORY (...)

Additional Professional Experience

2016 - 2021
